EARL YOUNG'S TEAM

Defeating Blood Cancer Thru Donor Awareness

earlyyoungsteam.org

A word from our Sponsor:

Earl Young's Team has the primary goal of defeating blood cancer through donor awareness. It starts with getting more people to understand the importance of getting their cheeks swabbed, followed by providing them the opportunity to do it.

Our efforts are focused on college campuses because young donors provide the best patient outcomes. A college campus provides large groups of young, healthy candidates who also have the energy and spirit needed to spark a nationwide movement.

It starts with sharing the importance of joining the registry with a simple cheek swab, followed by the opportunity to GET SWABBED with our partner, DKMS. We are actively scheduling drives on college campuses for the spring 2024 and fall 2024 semesters.

Earl Young's Team is an active partner with Arkansas Nursing Students' Association. Let's change the landscape for patients with blood cancer by increasing the number of potential bone marrow and blood stem cell donors in the national registry together.

Contact Jeanie Smith at jeanie@earlyyoungsteam.org to schedule a drive at your school!
